FIRST INTERNATIONAL CONFERENCE ON INTERDISCIPLINARY FRONTIERS IN SCIENCE AND ENGINEERING

25 to 26 December, 2024 at the Faculty of Science, Ibn Tofail University-Kenitra, Morocco

Introduction

The First International Conference on Interdisciplinary Frontiers in Science and Engineering (FICIFSE) is a unique scientific event dedicated to exploring the interdisciplinary boundaries between science and engineering. This conference provides an exceptional platform for researchers, engineers, and experts from around the world to share their work, exchange innovative ideas, and establish lasting collaborations across diverse fields.

By combining scientific and technological disciplines, FICIFSE aims to tackle global challenges through integrative and innovative approaches. Whether you are an academic, a student, or a professional, join us to discover the latest advancements, broaden your perspectives, and shape the future of science and engineering together.
